GZERNOVITZ HAS FALLEN; LEMBERG NEXT IN LINE

RUSSIANS CAPTURE
14,000 PRISONERS

Center of Bukovina Surrenders
To Overflowing Numbers and
Lemberg is in Jeopardy

(By Associated Press.)

PETROGRAD, June 16.—The capture of an additional hundred officers and 14,000 men is announced by the war office. Russian successes on the southern front continue.

A dispatch from Bukovina says the Austrians before evacuating Gzernovitz arrested a number of persons, who were forced to accompany the retreating troops.

Railway tracks about the city were destroyed.

It is stated that this effective Russian drive is due to the use of Japanese guns more powerful than Russia has hitherto used. A heavy-caliber shell is charged with a powerful new explosive of terrific destructive force.

ROME, June 16.—Eighteen thousand Austrian-Hungarian troops who attacked in dense formation the Italian positions on Asiago plateau were repulsed, leaving piles of dead, according to an official statement.

Nomination of Wilson Is
Made By Acclamation

(By Associated Press.)

ST. LOUIS, June 16.—The Democratic convention is a thing of the past. At 8 o'clock last night when the delegates began to assemble there was a slight delay over the report of the platform committee, which had not completed its labors, but in half an hour the spellbinders were in full swing and nominating speeches were delivered without any variation from the set program. Wilson and Marshall were nominated by acclamation.

The name of Wilson was introduced by Judge John W. Westcott, attorney-general of New Jersey, who placed Wilson in nomination at Baltimore. He spoke as follows:

"Prophecy is fulfilled. The eternal verities of righteousness have prevailed. Undismayed by the calamities of war, unmoved by vituperation and vain declamation, holding to the pure altar of truth, the schoolmaster is statesman, the statesman financier, the financier emancipator, the emancipator pacificator, the pacificator the moral leader of democracy.

"The nation is at work. The nation is at peace. The nation is accomplishing the destiny of Democracy. Four years ago the nation was not at work. With resources boundless, with a hundred million people eager to achieve and do, commerce languished, industries halted, men were idle. The country struggled in the coils of an inadequate financial system. Credit was at the mercy of piracy. The small business man was bound hand and foot. Panic hung like a storm cloud over the business world.

Industrial Activity

"Now bursting granaries, teeming factories, crowded railways and overladen ships distribute wealth and comfort to uncounted millions the world over. Production outruns the means of distribution. The parallel of American prosperity is not found in industrial history; nor is it causeless. It did not descend, like a merciful accident, from heaven. It is not due to the devastations of a revised tariff. It is not the result of destruc-

tive legislation. It cannot be attributed to the manufacture of war materials, constituting a bare five per centum of the volume of national business. War is destruction, not production. War depresses industrial energy. When the European cataclysm struck the world, moratoria fell like a blight upon many of the neutral nations, but not upon the United States.

Nation at Peace

"The nation is at peace in a world at war. America is confronted with appalling realities. It is not the part of wisdom to play with phantoms, deal in riddles, or seek to entertain the national imagination with the legend-mountain of language. To build words as high as the throne of vanity and ambition should not be an American pastime. An attempt to catch the Presidency by phrases is the work of folly. The function of a sounding brass and tinkling cymbal is not germane to the tragic conditions of the

PLATFORM APPROVED
BY WILSON'S PARTY

Last Act in the Superheated Political Drama Enacted With
Protest Against Suffrage

(By Associated Press.)

ST. LOUIS, June 16.—The resolutions committee finished the draft of the platform this morning. Few changes were made in the draft prepared by the subcommittee. The leaders believed approval would be given without discussion. The suffrage plank is similar to that of the Republicans, endorsing the issue and leaving the adoption or rejection to the individual states. The straight federal amendment was lost.

The platform as adopted endorses the administration and challenges comparison of its record, reaffirms belief in a tariff for revenue only, favors a shipping bill for the merchant marine, Americanism, peace, an adequate army and navy, non-interference with the internal affairs of other nations, strict neutrality, reasserts the Monroe doctrine and declares that troops must remain in Mexico until restoration of law, but that intervention is revolting to the people of the United States; condemns alliances of individuals of whatever nationality that may embarrass the government; woman's suffrage by states on the same terms as for men; favors granting Hawaii, Philippines and Porto Rico the traditional territorial government, generous pensions and favors a world peace association of nations.

Discussion of the suffrage platform and the completed draft prior to adoption furnished the only interesting features of the day's session of the convention, which met shortly before noon for its last meeting. Discussion of the platform was the only important business.

Reading of various planks caused scattered applause. Wilson's plank on Americanism was roundly applauded. Reading of the Mexican plank was frequently interrupted, especially the reassertion of the Monroe doctrine. The suffrage plank caused a demonstration in the galleries more from men than women.

Governor Ferguson of Texas presented a minority report on suffrage in which he said the majority plank was not the conviction of the Democratic party and was "a fatal surrender of Democratic principles." The statement was greeted with hisses.

Ferguson said women "should perform the function for which God intended them."

"For the first time there was a lack of harmony in the convention and the floor was thrown into disorder, which resulted in ordering a roll call on the plank."

Amid uproarious scenes caused by a discussion of the suffrage plank the entire platform finally was adopted by acclamation, containing the suffrage plank as written by President Wilson.

The attempt of Ferguson of Texas to change the wording was voted down overwhelmingly. Convention adjourned sine die at 3:11 p. m.

KNIGHTS COLUMBUS
HIRE SPECIAL TRAIN

TONOPAH AND GOLDFIELD COUNCILS COMBINE FOR A BIG INITIATION

The Knights of Columbus living in Tonopah and Goldfield have combined in engaging a special train over the Las Vegas and Tonopah railroad for the purpose of attending the ceremonies associated with inducting over a score of candidates into the mysteries of the order. A low rate has been secured and, according to present plans, the knights will leave Goldfield next Saturday night at 10 o'clock and return leaving Las Vegas in time to arrive in Goldfield Monday morning at 7 o'clock so the Tonopah delegates may catch No. 23. The committee in charge of the matter expects some sixty members to make the trip.

Last night Tonopah Council elected Ed. J. McLaughlin treasurer to fill a vacancy created by a resignation.

LONE MOUNTAIN CABINS
PILLAGED BY BOYS

CHIEF EVANS ISSUES A WARNING
WARNING TO ALL OFFENDERS
SUBJECT TO ARREST

Prospectors and claims owners in the vicinity of Lone Mountain complain of the ravages of young vandals who have invaded the section since the closing of the schools gave them time to wander at large with their burro teams. Many miners

working on Lone Mountain report loss of small articles and commodities, which were finally traced to juvenile visitors from Tonopah. None of the stolen property is of great value, but the owners were put to serious inconvenience through absence of necessities in the way of food and tools.

At the Succell camp the boys plugged up the pipe line so as to make a real old-fashioned swimming hole and did other damage that entailed considerable expense in making repairs.

TEMPERATURE REPORT

Highest temperature yesterday, 87; lowest this morning, 66.
Highest temperature a year ago, 82; lowest 60.

VETERAN OARSMAN
IN RETIREMENT

COURTNEY ENDS HIS PROFESSIONAL CAREER WITH CORNELL

(By Associated Press.)

NEW YORK, June 16.—The retirement of Charles E. Courtney, for many years crew coach at Cornell university, marks an epoch in American intercollegiate rowing and the first break in the trio of coaches who have made Cornell victorious in recent years on water, track and gridiron. No coach ever achieved greater fame in his chosen line of athletic instruction.

Courtney's retirement was not entirely unexpected, for the "Old Man," as he has been affectionately termed at Ithaca for some years, has been in poor health since he sustained a fractured skull on June 12, 1915. The accident occurred while he was en route to Poughkeepsie with the Cornell crew and was caused by Courtney being thrown violently against a berth following a lurch of the fast-traveling train.

Born in 1848, Courtney is in his sixty-eighth year, and after his many seasons of competition as an amateur and professional oarsman and his later reign as coach at Cornell, his friends and medical advisors feel that he has richly earned the quiet and retirement which he requires. Thanks to the generosity of the Cornell alumni and undergraduates, Courtney is removed from any financial worries or cares. He owns outright a handsome home and grounds at Ithaca, overlooking Cayuga lake, the gift of Cornell men, in addition to a comfortable competency.

OUR STEVE IS AT HOME
IN THE MIZPAH AT RENO

Steve Pavlovich, the gentlemanly entertainer so well known in Tonopah and the southern country, is now keeping open house at the Mizpah of Reno, a resort recently opened on North Virginia street, where Steve is the presiding genius. He is always glad to welcome his friends from Tonopah and will take pleasure in introducing them to the finest equipped cafe in the town by the Truckee. The Mizpah advertisement appears on page 4 of this issue.

TODAY AND A YEAR AGO

Official readings of the thermometer by the United States observer at Tonopah.

	1916	1915
5 a. m.	67	61
9 a. m.	80	70
12 noon	85	77
2 p. m.	83	77
Relative humidity at 2 p. m.	today, 12 per cent.	

TONOPAH COOLEST
ON PACIFIC COAST

SMILE AND MAKE THE BEST OF HEATED TERM, FOR OTHERS ARE WORSE OFF

Tonopah is a real, genuine blow-in-the-glass summer resort. There is no mistaking that fact, for it is solemnly asserted by the U. S. Weather Bureau that Tonopah was one of the coolest places on the Pacific Coast yesterday. And at that the citizens of Tonopah were worrying and storing away their furs without any thought of the discomfort of others in the great outside world.

Tonopah enjoyed a maximum of 87 degrees of temperature, as measured by your Uncle Sam. The same generous caterer reported the thermometer in the official kiosk at Reno stood at 93 with a humidity that tempted the Truckee trout to climb out on the bank and bask in the moisture. Phoenix, Ariz., reported 108 degrees, and Red Bluff, Cal., said the air was delicious when it only registered 102. Fresno was ultra comfortable at 100 and Sacramento was shivering at 98, which is almost frigid for the capital of California. Even Portland, away up north, could not pull down the reading below 88. So it appears that Tonopah had the best of it all round. It is a safe bet that Tonopah has the best climate in the world.

TAKEN TO OLD HOME
FOR HER FINAL REST

EXERCISES CONDUCTED AT THE PRESBYTERIAN CHURCH; ATTENDANCE LARGE

To the mournful tolling of the church bell the remains of Mrs. Thomas Uland, who died last Tuesday morning, were borne to the Presbyterian church yesterday afternoon, followed by a large cortege of those who had enjoyed the friendship of the young wife during her residence in Tonopah. The casket was buried under a blanket of flowers and bouquets of every description testified to the fragrant memories surviving the coming of death. Rev. R. W. Bayless officiated and his eloquent references to the many virtues and trials of deceased brought tears to the eyes of the audience. Mrs. Soller-Hanby sang "The Rosary" and Mesdames Simmons and Raush sang a duet that was followed by a quartette selection sung by Mesdames Raush and Simmons and P. E. Chandler and E. O. Seeley. The body was returned to the undertaking parlors and forwarded this morning to the old home at Auburn, Cal., for interment.

FRENCH REPEL
GERMAN ATTACK

TWO ASSAULTS IN WHICH THE AGGRESSORS GET THE WORST OF IT

(By Associated Press.)

PARIS, June 16.—Powerful German attacks at Thiamont Farm were repulsed today with a machine gun and infantry fire, says an official message. The Germans began their attack on the right bank of the Meuse to Hill 320 simultaneously with another attack south of Caillotte Wood. The curtain of French fire prevented a further assault.

BERLIN, June 16.—Two French attacks along the southern slope of Dead Man's Hill have been unsuccessful, says an official statement. In the first attack the French temporarily gained, but a counter attack repulsed them.

PROOF OF LIQUID
CYANIDE FOUND

CHICAGO CHEMIST TESTIFIES TO RESULT OF POST MORTEM EXAMINATION

(By Associated Press.)

WAUKEGAN, Ill., June 16.—Dr. William McNally, a chemist of Chicago, testified that liquid cyanide potassium causes death quicker than the solid form. He said he found almost four grains of cyanide in the portion of the girl's stomach he examined. He said the solid could not have deliquesced sufficiently to cause the spots on the girl's coat or the encrusted lines on her hand.

GOLDFIELD MAN ELECTED

Dr. J. L. McCarthy of Goldfield, county physician of Esmeralda county, was elected national committeeman from Nevada, vice Senator Bell of Humboldt county. San Pickett of Washoe and the incumbent were candidates for the position.

MRS. LUCILE MAPES was a passenger this morning for Goldfield, returning tomorrow morning.

ART SMITH BREAKS
LEG IN A LUCKY FALL

(By Associated Press.)

TOKIO, June 16.—A dispatch from Sapporo, Hokkaido, says Art Smith, aviator, broke a leg in falling from an aeroplane during an exhibition flight.

RUMANIA MAY JOIN
THE ENTENTE ALLIES

(By Associated Press.)

ATHENS, June 16.—It is reported that the Bulgarians are withdrawing most of their forces from Salonika to the Rumanian frontier.

BRITISH RETREAT
IN MESOPOTAMIA

COMPLETE ABANDONMENT OF THE TERRITORY HELD SO STUBBORNLY

(By Associated Press.)

CONSTANTINOPLE, June 16.—Further withdrawal of the British below Kut el Amara, on the Tigris, is reported in an official statement. The Russian troops were met near Kilan and driven off.

TEDDY SILENCED
BY A BAD COUGH

COLONEL SUFFERS INTENSE PAIN AND IS FORCED TO SUMMON DOCTOR

(By Associated Press.)

NEW YORK, June 16.—Theodore Roosevelt, owing to a severe coughing spell, is barely able to speak this morning above a whisper. A doctor was called to the hotel where he is staying and took him to his office, where he was examined. Last night was the worst the Colonel has had. He suffered much pain.

The doctor attending Roosevelt declares his illness is not serious and says his recovery will be complete in a few days. Roosevelt reiterated

TAKE OVER QUARRY
OF LOW GRADE GOLD

HARVEY & TAYLOR CLAIMS TO BE HANDLED ON LARGE SCALE

The organization of the Mineral County Gold Mining and Cyaniding company has just been completed, with J. H. Miller as president, P. H. O'Neill, vice president; J. E. Adams, secretary and treasurer, and P. A. Simon as assistant secretary. The directors of this company are: J. H. Miller, P. H. O'Neill, J. E. Adams, Montie Gwinn and P. A. Simon. The company has taken over the gold property formerly known as the Harvey and Taylor, consisting of five promising claims in the Bell mining district of this county. In conjunction with the Olympic mining com-
